

LEARNING OBJECTIVES FOR CIRCULAR CITY TRANSITIONS

This project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement number 820937.

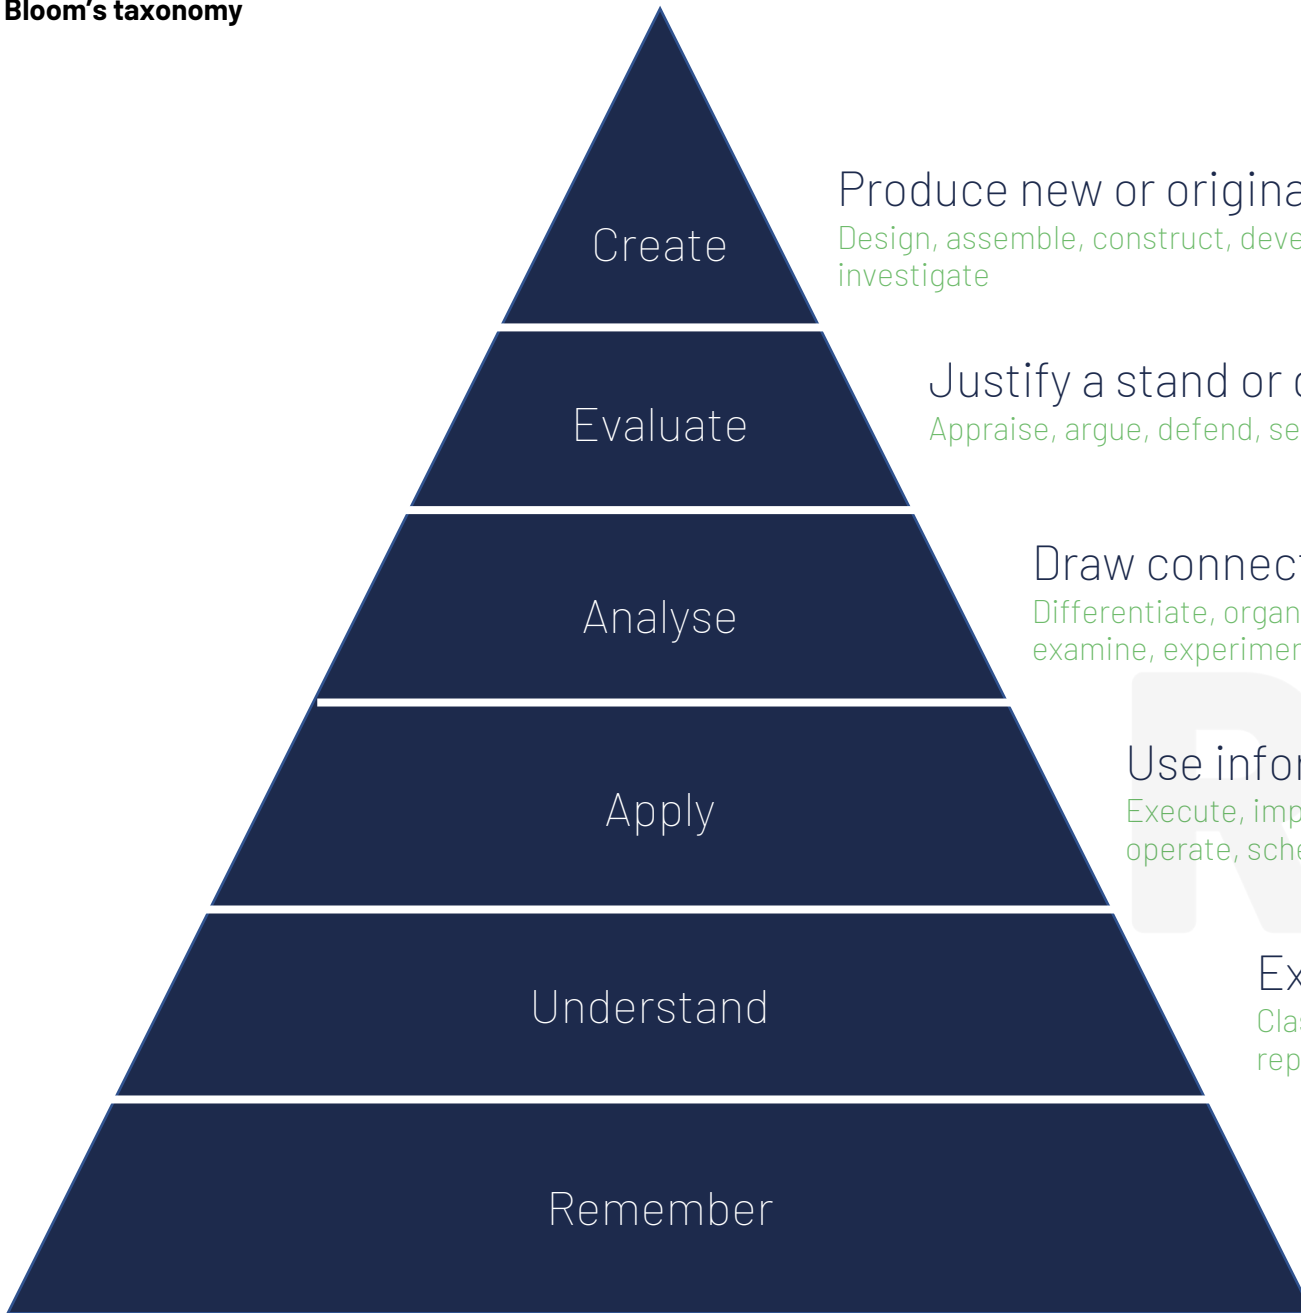

What is the objective of this tool?

This diagram features the different skill levels that can be used to structure your learning objectives and pitch your learning offer correctly.

How to use this tool?

- This diagram helps to define the level of ambition (i.e. what a learner should be able to do or demonstrate after a session) and align that with the learning activities. Rather than use it as a set of distinctive steps, you can look at it as a spectrum that helps you position what your learning offers should be aiming for.
- Ask yourself: How should you define the learning objectives for your training? At what level should you pitch your learning offer?

Create

Produce new or original work

Design, assemble, construct, develop, author, formulate, investigate

Evaluate

Justify a stand or decision

Appraise, argue, defend, select, support, value, critique, weigh

Analyse

Draw connections among ideas

Differentiate, organise, relate, compare, contrast, distinguish, examine, experiment, question, test

Apply

Use information in new situations

Execute, implement, solve, use, demonstrate, interpret, operate, schedule, sketch

Understand

Explain ideas or concepts

Classify, describe, discuss, identify, locate, recognize, report, select, translate

Remember

Recall facts and basic concepts

Define, duplicate, list, memorize, repeat, state
